Al's Formula®

A comprehensive vitamin-mineral supplement for men over 40

- Includes saw palmetto, extra zinc, glycine, and glutamic acid for prostate health*
- Provides the active forms of folic acid – L-5-methyltetrahydrofolate and folinic acid in a balanced 1:1 ratio
- Betaine and hawthorn extract promote cardiovascular function*
- Does not contain iron, as iron can be potentially harmful in some older men

Allergy Warning

This product is contraindicated in an individual with a history of hypersensitivity to any of its ingredients.

Pregnancy Warning

If pregnant, consult your health-care practitioner before using this product.

Interactions

As vitamin K interferes with the effect of anticoagulant drugs (like Coumadin), the concurrent use of these agents should be avoided.

Folinic acid and 5-methyltetrahydrofolate (5-MTHF) supplementation are not recommended concurrent with methotrexate cancer therapy, as they can interfere with methotrexate's anti-neoplastic activity; however, these folate sources have not been shown to interfere with the anti-inflammatory activity of methotrexate. An individual taking methotrexate for psoriasis or rheumatoid arthritis can safely take a supplement containing folate.

Additional Warnings

Vitamin C can cause diarrhea in some individuals in large doses, which can vary from person to person and resolves when the amount is reduced.

Gas, bloating, or diarrhea may occur in some individuals taking magnesium supplements. This can occur at varying amounts depending on the individual and resolves when the amount is reduced.

Purity

This product does not contain wheat, gluten, corn, yeast, soy, egg, dairy products, or artificial colors, artificial sweeteners, or artificial flavors. This product also does not contain lactose, palmitic acid, magnesium stearate, or stearic acid.

Suggested Use

Take 4 to 8 capsule daily or as recommended by a health-care practitioner.

Additional Notes

Please see page 2 for list of ingredients
