60 Vegetarian Capsules

Code: SF799

120 Vegetarian Capsules

Code: SF791

Allergy Warning

This product is contraindicated in an individual with a history of hypersensitivity to any of its ingredients.

Phytoprofen contains curcumin phytosome, a plant extract complexed with phosphatidylcholine, which is derived from soy. Phosphatidylcholine contains no soy protein. There are no other soy-based ingredients in Phytoprofen.

Pregnancy Warning

If pregnant, consult your health-care practitioner before using this product.

Interactions

Because bromelain has fibrinolytic effects, potentially inhibiting blood clotting, Phytoprofen should be used with caution or avoided in individuals on anticoagulant therapy or prior to surgery.

Curcumin has been shown to reduce the therapeutic efficacy of cyclophosphamide (Cytosan) in animal studies. *In vitro* research reveals curcumin decreased camptothecin-induced death of cultured breast cancer cells. Curcumin might also interfere with the absorption and efficacy of the chemotherapy drug irinotecan, used to treat colon cancer. The concurrent use of curcumin with these agents should be avoided.

Additional Warnings

It is not recommended to remove the Phytoprofen powder from the capsule to take orally, as it can be irritating to the oral mucosa.

Purity

This product does not contain wheat, gluten, corn, yeast, egg, dairy products, or artificial colors, sweeteners, artificial sweeteners, or artificial flavors. This product also does not contain lactose, palmitic acid, magnesium stearate, or stearic acid.

Suggested Use

Take 2 capsules two to three times daily or as recommended by a health-care practitioner:
